Profile

My goal is to improve myself every day with new challenges thanks to my missions and self-training.

I'm very active in Microsoft technologies and more specially Project Management, Business Analysis SharePoint 2007/201x (installation, configuration and custom developments), Project Server 2007/201x and Office 365.

Getting experiences, self-learning, blogging, writing articles and attending events are different ways to keep in touch with the latest technologies such as SharePoint 2007/201x and SharePoint Online.
I
'm also Vice-President of the SharePoint Luxembourg User Group (SPLUG) committee and speaker at several events.

Specialties: ECM, Project Management, Business Analysis, SharePoint 2007/201x, Office 365, WSS3.0, Project Server 2007/201x, SQL Server 20xx, ...

Specialties and Technical Transcript

Project: Competitor Intelligence (10/2006 – 10/2009)
Context: The mission consists in building and in packaging a custom solution based. The solution includes different features including application pages, security, ratings, custom expiration policy, lists and content types' definitions in order to be easily installed and deployed by the SharePoint administrators.
Roles: Architect / Developer
- Functional analyze
- Technical analyze based on the functional analyze
- Creation and configuration of the SharePoint site
- Development of the solution and its features
- Deployment and installation of the solution
- Documentation

Technical Environment
Windows Server 2003, C#, ASP.NET 2, MOSS 2007 Ent, CAML

Project: Skills (10/2006 – 10/2009)
Context: The mission consists in building and in packaging a custom solution based. The solution includes different features including application pages, lists and content types' definitions in order to be easily installed and deployed by the SharePoint administrators.
Roles: Architect / Team Leader
- Functional analyze
- Technical analyze based on the functional analyze
- Creation and configuration of the SharePoint site
- Development of the solution and its features
- Deployment and installation of the solution
- Documentation

Technical Environment
Windows Serve 2003, C#, ASP.NET 2, MOSS 2007 Ent, CAML, SP Guidance Nov. 2008

Project: Electronic Permanent Data Room (10/2006 – 10/2009)
Context: The mission consists in installing and configuring the SharePoint site in using the out-of-the-box "Records Center" template, in developing a feature to deploy automatically new content types to match with the Hummingbird metadata and to deploy automatically the basic custom lists, in developing a custom record router to route and classify the documents from Hummingbird in their right location, in developing a windows application to get the documents from Hummingbird and import them in SharePoint, in developing a feature to audit the documents (view, edit, update, …), in developing a feature to apply security (SharePoint groups) to documents following their metadata (internal company, section, …), in developing a custom search feature to search documents following their metadata and in developing a feature to log basic information about deleted documents in a specific list.
Roles: Architect / Team Leader / Developer
- Installation and configuration of the SharePoint site
- Deployment of the custom authentication provider
- Deployment of the branding
- Development of several features (content types and basic custom lists, custom record router, audit of documents, security of documents, custom search, log of deleted documents)
- Development of the windows application to import the documents from Hummingbird

Technical Environment

Windows Server 2003, C#, ASP.NET 2, MOSS 2007 Ent, WinForms, CAML

Project: Collaboration Portal (10/2006 – 10/2009)
Context: The mission consists in integrating and configuring the portal in the existing environment, in developing a custom authentication provider which integrates the authentication system and in developing and applying the branding.
Roles: Architect / Developer
- Configuration of the custom and windows authentication (different zones)
- Development of the custom authentication provider (users and roles)
- Development of the custom Login and Signout pages to support the authentication system
- Development of the branding as a feature

Technical Environment
Windows Server 2003, C#, ASP.NET 2, MOSS 2007 Ent

Project: F-Watch (10/2006 – 10/2010)
Context: The mission consists in building a web part which generates an excel file in function of the selected criteria.
Roles: Architect / Developer
- Configuration of the custom and windows authentication (different zones)
- Development of the custom authentication provider (users and roles)
- Development of the custom Login and Signout pages to support the authentication system
- Development of the branding as a feature

Technical Environment
Windows Server 2003, C#, ASP.NET 2, SharePoint 2007, SmartPart

Period	03/2006 – 10/2006
Company	Banca Fideuram (Bank)
Position	Analyst Developer
Projects	Project: PProfit / Budget IT Roles • Migrating the ASP.NET 1.1 application to ASP.NET 2.0 • Migrating Crystal Report reports to SQL Reporting Services • Developing new functionalities • Developing new reports Technical Environment Windows Server 2003, C#, ASP.NET 2, SQL Server 2005, Reporting Services

Period	02/2006 – 03/2006
Company	Ferrero (Food)
Position	Developer
Projects	Project: Access to SQL Migration Roles • Migrating Access databases to SQL Server 2000 • Developing DTS package for data consolidation Technical Environment SQL Server 2000

Period	11/2005 – 02/2006
Company	Parthena (Fiduciary)
Position	Developer
Projects	Project: AAP Roles: • Developing new functionalities (Windows application) • Developing multilingual reports using Crystal Reports Technical Environment WinForms, C#, Visual Studio 2003, Crystal Report

Period	09/2005 – 11/2005
Company	ArcelorMittal Liège (Industry)

Position	Developer
Projects	Project: Investments
	Role: Developing new functionalities (Web application)
	Technical Environment
	Windows Server 2003, SQL Server 2000, ASP.NET 1.1, C#, Visual Studio 2003

Education

- o 2005 Haute Ecole Rennequin Sualem, Degree in Industrial Computer Sciences - bachelor's in computer sciences with High Honors

Certifications MCP

- o 2015 PRINCE2® Foundation & Practitioner
- o 2013 Microsoft Certified Trainer
- o 2008 MCPD Web Developer
- o 2008 MCTS Windows SharePoint Services 3.0, Application Development
- o 2007 MCTS Microsoft Office SharePoint Server 2007, Application Development
- o 2007 MCTS Microsoft Office SharePoint Server 2007, Configuring
- o 2006 MCTS SQL Server 2005
- o 2006 MCSD .NET

Additional experiences

- o 2015 PRINCE2® Combined Foundation & Practitioner
- o 2007 MS Course 5061: Implementing Microsoft Office SharePoint Server 2007
- o 2006 MS Course 2157: Developing E-Business Solutions using MS BizTalk Server 2004
- o 2004 Microsoft Summer Boot Camp 2004: Developing Mobile Applications

Language

- o English (Professional working proficiency)
- o French (Mother tong)

Current interest

- o SharePoint 2019 & office 365
